

# Sea Watch Investigator Task

## Measuring sizes of Cetaceans - How big are the Cetaceans in our seas?

Below are the names of the species on the chart and their average sizes. Please note all the marine mammals can be found in the coastal waters of the U.K. (Seal colour is not representative!)

In order -

Name of species	Size (in metres)
Fin Whale	20.5m
Basking Shark	6m
Bottlenose Dolphin	4m
Grey Seal	2m
Leatherback Turtle	1.5m
Common Seal	1.7m
Orca	9.5m
Human Diver	1.7m
